GREENS

Soft, natural shades of green are a soft choice for both modern and traditional homes. They combine well with cream or charcoal accents.

elaborate
homes.
cool accents.

HINT

Always ensure your exterior is properly prepared before any colour changes. This will ensure a consistent and longer lasting finish on your home.

BLUES

Tranquil blue colours are perfect for trims and accents of traditional homes, or try a blue mid tone for modern, rendered homes.

HINT

Always check the weather forecast before you start painting exteriors. Avoid painting in very high or low temperatures.

STONE

GREENS

Soft, natural shades of green are a sophisticated choice for both modern and traditional homes. They combine well with cream or charcoal accents.

HINT

Always ensure your exterior is properly prepared before you start painting. This will ensure a smoother and longer lasting paint finish on your home.

REDS, ORANGES & YELLOWS

The earthy hues of nature harmonise well with soft creams and honey tones. Use rich tones for front doors and architectural features.

HINT

Always remember to consider your roof colour when painting your home. Paint doesn't need to match the roof, but it does need to work harmoniously within your colour scheme.

BEIGE

MERRY GO ROUND
TULIP WHITE

PURPLES & PINKS

Classic purples and elegant shades of pink are popular for modern homes. Use bright colours sparingly, on larger areas use more muted tones. They work well in combination with grey neutrals.

HINT

Look at house styles and colours in your street to get ideas on what might work best for your home.

OUTDOOR ENTERTAINING

Outdoor rooms are the perfect place to experiment with bold colours and fashionable shades. Pick a colour and then use outdoor accessories such as cushions to co-ordinate.

HINT

A lower gloss paint will hide surface imperfections and is especially suited to brick or uneven render work.
